REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The independent claims 1, 14, 15 and 16 require a combination of either a thermoplastic polyamide resin, a phosphazene compound and a polyphenylene ether-based resin or a thermoplastic polyamide resin, a phosphazene compound and a mixture of a polyphenylene ether-based resin and a polystyrene based resin. The reference to Nakacho et al (EP 0 945 478) shows the resins employed at paragraphs [0075] and [0076] but provides no guidance for the specific for the selection of a polyamide, a phosphazene compound and either a polyphenylene ether-based resin or a mixture thereof with a polystyrene based resin, as recited in the instant claims. The Declaration of Suzuki of 9 April 2007 shows the selection from the list of Nakacho et al to be critical. As such, the instant claims are deemed to be novel and not obvious from the teachings of the reference. The rejection thereover in view of Ida or An is hereby expressly withdrawn. Further, the subsequent rejection in view of White et al is hereby expressly withdrawn. No prior art has been found or presented that either teaches or fairly suggests the production of the flame retardant resin, as herein recited and claimed. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
